- L Site Contamination

Sector Rating

- H High risk issue
- M Medium risk issue
- L Low risk issue

Risks & Opportunities

- A high energy bill may indicate potential for efficiency improvements and cost savings.
- The emission of polluted water to the environment may lead to conflict with other users and intervention by the authorities.
- Activities and substances that are on the IFC exclusion list entail a risk to reputation.
- Emissions to air may lead to intervention by neighbors and the authorities.
- Large amounts of waste and hazardous waste require appropriate disposal.
